INDEX 1978
SUBJECT

A
A[illegible] 1977
[illegible] ee scales 2–13
[illegible]le (sound absorption [illegible]a) 4–57
[illegible], Noise control in Iran 1–52
Air-conditioned shopping (Stoneborough Centre) 4–43
Airdomes, see *Membranes*
Airship (the A8 500) 10–9
Alm road bridge (Austria) 9–34
Anti-matter makes its debut 12–4
Appropriate convenience (the biopot) 11–70
Architectural treatment of building services 6–60
Architects' workload 2–14
Arctic islands for oil exploration 10–70
Army & Navy Store, Victoria Street 1–15, Ground engineering for 1–30
Asian Development Bank 12–4
Automatic building controls (maintenance) 12–27
Awards
  Concrete Society 7–7
  Financial Times Industrial Architecture 1977, Bath factory 1–10, 1978 winners 12–7
  MacRobert, Malvern correlator 3–15
  Queen's (export achievement) 7–7
  Structural steel design, Bath factory 1–10

B
Bahrain's dry dock 2–15
Bandar Shahpour 10–29
Barbican School of Music & Drama 1–14
Bath factory (Herman Miller Ltd) 1–10
BCB (British Consultants Bureau)
  BCB's open door 10–10
  Cooperating with the public sector 3–9
Beckton sewage treatment works 9–7
Boats, piles and piers 1–26
Brick diaphragm wall 10–6
Bridges
  Alm road (Austria) 9–34
  Brisbane rail-over-river 1–26
  Humber (traffic forecasts) 10–7
  Kuala Lepar (Malaysia) 6–5
  Ruck-a-Chucky 2–10
  Shepherd's House 3–15
  17th of July (Baghdad) 3–16
British Standards (Specifying Engineer) 10–91, 11–81, 12–53
BUDSU, Who pays the bill? 10–9
Building services
  Air conditioned shopping 4–43
  Architectural treatment 6–60
  Central supervisory control 6–53
  Coal by pipe 10–79
  Energy and comfort in building design 11–31
  Engineering for a whole building 10–49
  Future developments in controls 4–33
  Hang the services (fixings) 4–49
  Is the building services consultant alive and well? 4–51
  Northgate arena 4–38
  Proof of the pudding (role of the design contractor) 4–45
  Total building management 6–62
  Underfloor heating 11–29
Buildings on rubber springs in earthquake areas 5–35
Buwayb r-o water treatment plant, Riyadh 8–34
Byker reclamation plant 12–35

C
Canadian study of consultancy 11–5
CEBI (Comité Européen des Bureaux d'Ingénierie)
  Annual meeting 12–4
  Comment 3–7
  Contract with EEC 3–10
  Invitation to a wedding? 7–11
  Study of design costs (Amsterdam seminar) 7–16
  A French view of public sector design (Amsterdam seminar) 9–25
  Interview, Michael Ewbank 11–11
CEDIC (Comité Européen des Ingénieurs Conseil
  Aims 3–16
  Comment 3–7
  Invitation to a wedding? 7–11
CERN (Centre Européen pour la Recherche Nucléaire)
  The survey group at 2–18
  SPS tunnel (photo) 3–25
  Protons at 400 GeV 4–22
Chimney design 11–56
CIRIA piling development programme 1–22
Coal by pipe 10–79
Coal gasification plant 7–47
Comment
  Development strategy (World Bank) 10–3
  EDF projects 12–3
  Energy vistas 11–3
  Fee scales and the public interest 1–9
  Jawboning 4–5
  Leave well alone (NEDO report: *Design and export*) 11–3
  Public sector consultancy 3–7
  Quango & Partners, clients' dream or silent nationalisation? 8–7
  Tweedledum & Tweedledee (CEBI and CEDIC) 3–7
Compressor, Single screw 1–56
Computer-aided design
  CAD at large 5–53
  Codes, computers and continuous beams 5–48
  Female 5–51
  Conference proceedings, CAD 78 (book review) 5–49
Computer centre, Aberdeen 1–14
Computer estimating 1–55
Computers, the use of (surveying) 2–33
  field data recording 2–52
Computing (Specifying Engineer) 10–97, 11–77, 12–51
Concrete
  Developments in fibre reinforced concrete 3–43
  Electrically conductive concrete 3–42
  Fire and concrete structures 5–43
  Light but strong 12–16
  Publications (Specifying Engineer) 10–95
Consulting engineers, The future of (letters) 1–15, 2–15
  Victoria Street 1–15
Contracts
  EDF's standard forms 10–12
  An EEC Commission view of standard forms 10–15
Cooperating with public sector consultants (BCB) 3–9
Corrosion
  Case studies and reports 12–31
  Stopping the rot (timber) 12–25
  Target: carefree longevity (steel) 12–23
Cost overruns 3–15

D
Dammam 6–11, 10–6
Dams and reservoirs
  Craigierig (Megget) 11–14
  Kielder 6–21, 9–61
  Poechos (Peru) 6–25
  Spelga (N Ireland) 6–20
Dead Sea, potash extraction 6–37
Decennial insurance of works 3–21
DEMAS 10–75
Design contractor's role (building services) 4–45
Design costs, study of (CEBI Amsterdams seminar) 7–16
Design for steel (B/20) 5–11
Digital mapping 9–54
Dinorwig power station, photo-profiling at 2–35
Diaphragm walls, *see Ground engineering*
Distance measuring 2–37
  in the Antarctic 2–51
  Automatic infra-red tachometer 2–52
Docks, *see Ports*
Drainage, Gallions Reach pumping station 11–24
Dredging, New generation of dredgers 10–7, 10–59
  Arctic islands for oil exploration 10–70
  DEMAS, Dutch consultancy 10–75
Dubai, power and water at 11–40

E
Earthquake and engineering
  Buildings on rubber springs in earthquake areas 5–35
  Dams and reservoirs 5–26
  Glossary of earthquake terms 5–23
  Soil stability 5–30
  Structural design 5–14
EDF (European Development Fund)
  CEBI contract 3–10
  Projects (comment) 12–3
  Standard forms of contract 10–12
Egyptian consultancy profession 12–8
Electricity distribution centralised 3–36
Energy
  Fuel for 50 years (World Energy conference) 7–19
  Fusion, the way forward 11–53
  Moscow's MHD plant 7–22
  Power and water at Dubai 11–40
Energy conservation, Report of Working Group on Building 4–56
  conversion (ocean thermal) 5–61
Engineer and the Union, *see Staff associations, Unions*
Engineering for a whole building 10–49
Estimate overruns 7–14
Exclusion clauses—the present position 11–63

F
Fee scales and the public interest 1–9 (comment), 2–13

Beswick, A J, *Soil Mechanics Ltd*
Accounting for natural hazards 1–49
Binger, W V, *FIDIC executive committee member/Chairman, Tippetts-Abbett-McCarthy-Stratton*
FIDIC project insurance seminar: Statement of the problem 8–46, Closing remarks 8–73
Binnie, *G. Binnie & Partners*
Interview 6–24
Boutorabi, M, *Deputy Minister of State for Technical Affairs, Iran*
Identification and analysis of risks (FIDIC project insurance seminar) 8–48
Bowers, N K, *Kennedy & Donkin*
Power and water at Dubai 11–40
Brady, A, *Macawber Engineering*
Coal by pipe 10–79
Brown, A, *Sir Frederick Snow & Partners*
Interview 12–12
Brown, K
Live steam for an endangered species (Kew Bridge pumping station) 9–27
Buchi, H F, *Past president, FIDIC*
FIDIC project insurance seminar 8–46
Burland, J B
Foundations for high rise buildings (paper, IStructE) 9–11
Burnell, A J, *CJB—Earl and Wright Ltd*
Interview 10–41
Butcher, E G, *Firecheck Consultants UK*
Fire hazards of thermal insulation 5–36

C
Carter J H, *Anthony Hunt Associates*
Design for steel 5–11
Clayton, C R I, *Ground Engineering Ltd*
Small diameter piles 9–47
Clements, D J, *Soil Instruments Ltd*
Settlement in elevation 1–46
Cox, P, *Rendel, Palmer & Tritton*
Interview 10–16
Crundwell, V C, *L G Mouchel & Partners*
Pedestrian subways at Heathrow 1–18

D
Delattre, J P, *Société d'Economie et de Mathématiques Appliquées (SEMA)*
A French view of public sector design (CEBI Amsterdam seminar) 9–25
Dotzel, R, *Munchener Ruckversicherungs-Gessellschaft*
Underwriting constraints (FIDIC project insurance seminar) 8–61
Driscoll, R
Foundations for high-rise buildings (paper, IStructE) 9–11
Dunican, P, *Ove Arup & Partners*
Interview 6–29
Dunlop, D S, *Ferguson & Mcllveen*
An exercise in waste detection (Belfast water supply) 8–29

E
Eales, N J, *Longdin & Browning (Surveys) Ltd*
Wriggle survey for Hong Kong metro 2–29
Ewbank, M, *Past President, CEBI/Ewbank & Partners Ltd*
Bringing the fragments together (interview) 11–11

F
Ferguson, P V, *Ajax International Corporation*
Water in the desert 8–34
Fielden, C J, *Abba Consultants*
Central supervisory control (building services) 6–53
Exclusion clauses—the present position 11–63
Findlay, I, *Chairman, Lloyd's*
Project insurance 8–13
Finlay, W S, *Ames Crosta Babcock Ltd*
Water in the desert 8–34
Fitt, R, *Hon Member FIDIC*
EDF's standard forms of contract 10–12
Friston, A H, *Department of Transport*
Study of design costs (CEBI Amsterdam seminar) 7–16

G
Garbe, L, *Electrowatt Engineering Services (London) Ltd*
Railway tunnel Born 9–42
Gasche, M F, *Swiss Reinsurance Co*

Underwriting constraints (FIDIC project insurance seminar) 8–58

Georgiou, K E, *Rodell Chimneys Ltd*
The trouble-free chimney 11–56

Germond, J P, *Commercial Union Risk Management Ltd*
Insuring overseas construction 6–40

Gourdeau, J P, *FIDIC executive committee*
Estimate overruns 7–14

Green, M B, *British Gas Corporation*
Future developments in controls (CIBS conference) 4–33

H

Harris, J S, *Foraky Ltd*
Ground freezing for large diameter foundation piers 1–41

Harrison, Maj-Gen I, *Director, British Consultants Bureau*
Interview 3–9, 10–10

Hawkins, A T,
Sulphur concrete (BHRA paper) 3–41

Hawkey, R W
Obituary 10–43

Hazzard, A O, *W S Atkins & Partners*
Structural design (earthquakes) 5–14

Hewitt, J M, *Tyne and Wear Metropolitan Council*
Byker reclamation plant 12–35

Hodgson, C W, *Ewbank & Partners Ltd*
Regulating the Tana River 10–45

I

Ingold, T S, *Ground Engineering Ltd*
Small diameter piles 9–47

Irwin-Childs, F, *Rendel, Palmer & Tritton*
Interview 10–16

J

Jacomb-Hood, E W, *C H Dobbie & Partners*
Wrap up for the Chunnel 12–43

James, D T, *R T James & Partners*
How not to hit the headlines 6–35

Jenkins, N
Background to the Hereford scheme 11–44

K

Kidd, B, *Sir William Halcrow & Partners*
Obituary 3–11

Konz, P, *Electrowatt Engineering Services (London) Ltd*
Railway tunnel, Born 9–42

Kulka, F, *T Y Linn International*
Light but strong 12–16

L

Lamotte, A F, *Dumon & Vande, Vin S A, Brussels*
Identification and analysis of risks (FIDIC project insurance seminar) 8–48

Lane, R G T, *Sir Alexander Gibb & Partners*
Dams and reservoirs (earthquakes) 5–26

Langley, G, *Johnston Controls*
Getting the best from automatic building controls 12–27

Leeney, J G, *CIRIA*
Tokyo tunnel symposium 9–37

Lindley, Dr B, *Electrical Research Association Ltd*
NEDO's short-term cosmetics (address) 12–4

Lodigiani, G, *Chairman, International Contractors Section, FIEC/managing director, Impresa Ing Lodigiani SpA*
Estimate overruns 7–14

M

McCracken, *V H, Ferguson & McIlveen*
An exercise in waste detection (water supply) 8–29

Malik, Dr S A, *Deputy Minister of Municipal and Rural Affairs, Saudi Arabia*
A client's brief (FIDIC annual meeting) 9–20

Markus, T A, *Professor of Building Sciences, University of Strathclyde*
Energy and comfort in building design 11–31

Martin, G R, *Fugro Inc*
Soil stability in strong earthquakes 5–30

Martin, P L, *Oscar Faber & Partners*
Engineering for a whole building 10–49

Mott, P G, *Hunting Surveys Ltd*
Digital mapping 9–54

N

Naylor, D, *Rosser and Russell Ltd*
Proof of the pudding (role of the design contractor, building services) 4–45

Nimpuno, K
Appropriate convenience 11–70

Norman, V M
Not yet vociferous (Managerial, Professional & Staff Liaison Group) 12–39
Pressurised recruiting (unions) 5–9, Redundancy, Halcrow and the aftermath 10–82, UKAPE'S recruiting drive 11–68, The struggle for recognition (staff associations) 2–17, The Wey & Arun Canal 4–30

O

Odell, Prof R, *Erasmus University, Rotterdam*
Fuel for 50 years 7–19

O'Sullivan, K, *T P O'Sullivan & Partners*
Interview 10–20

P

Pease, Dr R S, *Director, Culham Laboratory*
Fusion, the way forward 11–53

Piesold, D D A, *Watermeyer, Legge, Piesold & Uhlmann*
Regulating the Tana River, 10–45

Polivka, M, *Professor of Civil Engineering, University of California*
Light but strong 12–16

Poole, F T
The tangled web of litigation 1–53, 3–49

Price, M E, *Midlands Electricity Board*
Background to the Hereford scheme 11–44

Puhl, H-G, *President, CEDIC*
Interview 3–16

R

Ralph, M, *Sodimetal (GB) Ltd*
Hang the services 4–49

Raziq, Maj-Gen F, *Chairman, Pakistan Water and Power Development Authority*
Problems in present coverage (FIDIC project insurance seminar) 8–54

Rowntree, Sir Norman
Finniston Committee of Inquiry (address) 3–17

Ruck, A B, *Ruck Willcox*
Is the building service consultant alive and well? 4–51

Ruehl, H S, *Hochtief A G*
Problems in present coverage (FIDIC project insurance seminar) 8–57

Rylance, K, *K A Rylance & Associates*
The land surveyor's role in construction 2–24

S

Sabbour, H F, *Sabbour Associates*
Interview 12–8

Sadgrove, B M, *CIRIA*
Piling up experience (ground engineering) 1–22

Sandberg, A C E, *Messrs Sandberg*
Target; carefree longevity (steel corrosion) 12–23

Sassoon, Dr D, *Procurement adviser, legal department, World Bank*
Problems in present coverage (FIDIC project insurance seminar) 8–55

Scott-Kerr, R J
Systems consultancy (telemetry) 3–34

Scruby, B, *Sir Frederick Snow & Partners*
Interview 12–12

Shave, E J, *Building Design Partnership*
Northgate arena 4–38

Skipp, B O, *Soil Mechanics Ltd*
Accounting for natural hazards 1–49

Speller, J C, *Sedgwick Forbes Overseas Ltd*
Present ways of covering risks (FIDIC project insurance seminar) 8–53

Stafford, R W H, *Electrical Research Association Ltd*
The Thames scheme 3–22

Stanley, R, *C D C*
CAD at large 5–53

T

Taylor, P J, *J A Story & Partners*
Putting the surveyor on the map 2–22

Thoma, R
Architectural treatment of building services (ECCS paper) 6–66

Tomlinson, M J
Foundations for low-rise buildings (paper, IStructE) 9–11

Tottenham, H, *Hume Tottenham & Bennett*
Stopping the rot (timber) 12–25

Townsend, G H, *Mason, Pittendrigh & Partners*
Gallions Reach pumping station 11–24

Truesdale, G, *Institution of Water Pollution Control*
Presidential address 11–5

Turner, F H
Codes, computers and continuous beams 5–48

Tutein Nolthenius, R, *Haskoning*
Present coverage (FIDIC project insurance seminar) 8–57

V

Vango, R W, *J A Story & Partners*
Putting the surveyor on the map 2–22

W

Waite, I, *James Williamson & Partners*
Photoprofiling at Dinorwig power station 2–35

Wallace-Jones, G M, *Engineering Surveys Ltd*
The use of computers (surveying) 2–33

Warner, Sir Frederick, *Cremer and Warner*
Interview 6–26

Weltman, A J, *CIRIA*
Piling up experience (ground engineering) 1–22

Wendt, C M, *James Williamson & Partners*
Photoprofiling at Dinorwig power station 2–35

Westall, D, *CJB-Earl and Wright Ltd*
Interview 10–41

Whittle, R A. *Soil Mechanics Ltd*
Accounting for natural hazards 1–49

Wilkinson, A R, *Coode & Partners*
St Helier 10–22

Wilson, A, *Socotec-Bullen & Co*
Decennial insurance of works 3–21

Winder, J, *T & C Hawksley*
Thomas Hawksley (Watson-Hawksley amalgamation) 4–16

Woodhead, F A, *Foraky Ltd*
Ground freezing for large diameter foundation piers 1–41

Y

Young, R E
The present and the future (telemetry) 3–28
